## Your 2022 EdTech buyers guide.

We partner with top vendors in educational technology to bring you the best customer solutions. And we also want to keep you updated on industry trends and the challenges facing the EdTech climate over the past few years.

Edtech needed to innovate and evolve to meet the changing needs of students and teachers, as they adapted to the effects of the global pandemic. The challenges that educators faced during this pandemic were unprecedented, demanding the right EdTech solutions to be ready at short notice.

The major challenge facing teachers was keeping pupils motivated, engaged, and up to date on their studies. This put an immense pressure on technology and its use in learning, forcing it to evolve to meet the challenges that were changing

the learning landscape and creating new trends.

The current EdTech climate and trends have been massively shaped by the pandemic. Teachers now know what support they need from technology going forward, and where they can optimise learning for students with hybrid solutions that create the best learning environments.

### EdTech trends in numbers

**92%** of teachers believe tech is going to have a major impact on how they educate in the future.

The total value of AR in education will be approximately \$5.3 billion by 2023

**78%** of students find ebooks to be more effective than traditional paper books.

The US has the highest rate of laptop usage in classrooms – **71%** of students

**65%** of teachers say they use digital learning tool on a daily basis.

**90%** of UK educators agree that teaching and technology will soon be seamlessly combined

## LENOVO IS THE WORLD'S #1 EDUCATION PC PROVIDER

In order to meet the demands of the 21st century, education is evolving at an unprecedented rate. Teaching and learning are not just occurring in the classroom, students are learning collaboratively and in different ways than before. Lenovo is committed to building the right technology solutions to support the developing leaders of tomorrow and the passionate educators who inspire their students through their teachings.

### SOLUTIONS FOR EDUCATION

The need to provide 24/7 uninterrupted, inclusive and highly engaging learning experiences both in and outside the classroom has never been more important. Dell understand that schools continually need to adapt quickly to hybrid learning arrangements. This can be a complex and challenging task, with tightening budgets and higher expectations further adding pressures, Dell are committed to empowering educators and students to achieve their full potential by providing immersive hardware and software to help build brighter futures.

### LanSchool - CLASSROOM MANAGEMENT SOFTWARE THAT INSPIRES THE BEST OUTCOME IN EVERY STUDENT

As a pioneer of classroom management software, LanSchool has been placing purposeful technology in the hands of passionate educators for over 30 years. Lenovo's simple classroom orchestration solutions empower educators to inspire developing minds. The suite of solutions enables engaging one-on-one learning experiences and powerful collaboration in connected classrooms.

## Every day is a school day

By understanding the needs and desires of our users, Lenovo commits to creating and delivering devices, software, and services that positively impact the daily lives of educators and students. Lenovo designs intuitive and exquisite products at the highest levels of quality, durability, and usability.

### Lenovo V15 G2 ITL

### Building a brighter future, for a better tomorrow

With the world constantly changing we are all having to adapt and adopt new approaches and technologies. Across the education sector, demand for hybrid learning experiences is increasing. As is the need for schools to equip teachers and students with the resources they need to deliver better learning outcomes. At Dell Technologies they are committed to providing support and ensuring your customers digital strategies are built to last for today and tomorrow.

### A brighter future for education

The need to provide 24/7 uninterrupted, inclusive and highly engaging learning experiences both in and outside the classroom has never been more important. Dell understand that schools continually need to adapt quickly to hybrid learning arrangements. This can be a complex and challenging task, with tightening budgets and higher expectations further adding pressures, Dell are committed to empowering educators and students to achieve their full potential by providing immersive hardware and software to help build brighter futures.

92% of senior leaders of schools and colleges claim that technology has helped them to adapt to the “new normal” of remote working. Dell understand that schools and universities have had to adapt quickly to hybrid learning arrangements and are committed to empowering educators and students to achieve their full potential through technology.

### Empower learning

Today’s digital world provides opportunities for students to learn in highly personalized ways. When teachers and students leverage technology in meaningful ways, the learning experiences can inspire all learners. Dell Technologies can offer the products and solutions to help learning and teaching.

#### Entry laptop - Vostro 5510

## Smarter learning for all your tomorrow's

Technology is rapidly changing the way students learn and the way educators teach in the 21st century. Education administrators increasingly require innovative education solutions to adapt to change, and ASUS provides the education solutions to overcome these challenges, harness trends and empower students, educators and learning institutions.

### A new class of education laptop

To empower a future generation, ASUS is dedicated to solving unique challenges facing today's students and educators. Their comprehensive product range provides the tools needed for teaching or learning, ensuring that no-one is left behind. ASUS categorise their DNA into four distinct areas whenever they design a product for education. They cater for students from kindergarten to higher education, offer essential features for efficient learning, provide reliability in the classroom environment and even consider the needs of IT staff with easy-maintenance designs.

## Empower learning

ASUS laptops are affordable and easy to manage. With technology that transforms classroom time, they allow educators to focus on delivering personalised learning experiences that help enable better learning outcomes. These products empower students to navigate their learning and develop social and emotional skills, with free tools available to deliver tailored learning in key subjects like reading, writing, and mathematic.

### ASUS BR1100F

ASUS BR1100F is the best learning companion for students of all ages, with a tough, innovative design that's made to last.

[Buy now](#)

### ASUS E410

Life is all about finding the right balance, and ASUS E410 delivers just that. Lightweight and compact, it sports a stylish new look that fits right in with student's dynamic lifestyles.

[Buy now](#)

### ExpertBook B1

ExpertBook B1 streamlines your workflow to keep you productive. It boasts high performance, military-grade durability and extensive customisation to empower your schoolwork.

[Buy now](#)

### ASUS Chromebook CX1 (CX1100)

With speedy performance, robust security and convenient features, ASUS Chromebook CX1 is not only perfect for students - it's ideal for anyone on the go!

**EPSON®**  
EXCEED YOUR VISION

### Designed for learning

Epson understand education, and they use this knowledge to design technology that makes learning continuous and efficient. Epson solutions keep information moving. They connect collaborative groups, capture attention and empower both teachers and students.

Today's technology needs to work seamlessly and continuously, from screen sharing and flexible learning, to collaboration across locations, and empowering educators and students with a Bring Your Own Device (BYOD) strategy. Epson's technology supports this dynamic learning environment.

### Invest in the future

Students are more connected than ever – and they expect the same of the technology they use to learn. Simple to use, highly reliable, and easy to maintain, Epson's Wi-Fi solutions put your institution at the cutting-edge of education technology today, and protect your investment for the future.

### See the results

Bring learning to life and stimulate all kinds of abilities. Give students the confidence to pursue their own ideas, and inspire them to discover their own solutions. Epson's collaborative solutions put students in touch with their curriculum, so they can achieve better results and develop skills for life.

## Technology that brings learning to life

### Epson EcoTank ET-2851

# Enabling Success in Education

with **productive**, **secure** and **sustainable** print solutions from Lexmark

In a recent Education survey\* Lexmark identified three key points based on the research project findings, in which Lexmark can help enable the Education sector to save time, money and the environment through its productive, secure and sustainable solutions.

### Productive

Lexmark's smart printers lead the way in delivering productivity enhancing features, using innovative touchscreen technology that can help you manage costs more effectively and work smarter.

### Secure

Lexmark makes security an integral part of all products to help create a safer, secure and more productive environment for your school, college or university.

### Sustainable

Lexmark is a recognised industry leader for sustainability initiatives and environmental features which allow users to reduce the environmental impact of their printing.

Eliminating unnecessary activities gives teachers more time to get back to more value-added tasks – teaching! Lexmark's smart multifunction printers are leading the way in delivering productivity enhancing features, using innovative touchscreen technology that can help manage costs more effectively and work smarter. Solutions are designed with efficiency in mind, helping users streamline or even eliminate paper intensive/administrative, processes so they can accomplish more.

## Do More With Lexmark Education

### Lexmark MX521de

Mid-size workgroups can work fast and still run economically with the MX521de, the up to 44 pages-per-minute\* multifunction product with long-life components that rarely need replacement. A multi-core processor joins 1 GB of memory to power through big jobs, whilst a durable design helps to keep things moving.

[Buy now](#)

### Lexmark MS521DN

Get mono printing at up to 46 pages per minute, plus standard two-sided printing, at an affordable price. Durability and long-life components keep your maintenance costs low, too.

[Buy now](#)

### Lexmark CS331dw

Enhance small work groups productivity with colour output of up to 24 pages per minute\*, high-yield replacement toner cartridges and connectivity via Wi-Fi, USB and gigabit Ethernet - all in the Lexmark CS331dw.

Connectivity to online resources is now a central part of teaching practices, providing a safe and secure network for both students and staff. Deploying these networks at an affordable cost is a key challenge for education IT managers, and without a high performing robust network, valuable teaching time is lost.

In a space where IT budgets are increasingly squeezed as the number of people they serve expand, D-Link help schools deliver the performance they need while maintaining compliance without exceeding budgets.

- **Do More with smaller budgets**  
Helping hundreds of administrators around the world deliver the performance they need for devices across multiple sites that school networks support.
- **Maintain Compliance**  
Preconfigure network switches and access points to help school network administrators and IT personnel easily implement networks and maintain compliance.
- **Fully Backed, No-Cost Support**  
Your school depends on your network, and you can depend on us to support you with no-cost support and lifetime warranties

# NETGEAR®

## Helping Shape the Future

In education, connectivity has to be simple to install, easy to manage, affordable, flexible, safe and most importantly, it has to just work.

No matter how large your school district or how many facilities you need to connect, NETGEAR has the right solution with all the right features. High performance, high security, low price and Power-over-Ethernet convenience!

Teach your WiFi about teamwork, just as you do your students. Create a consistent wireless experience that extends far further by placing multiple access points apart from each other. They create a mesh of wireless coverage.

Whether your school is all in one building or several across a campus, smart switches with optional cloud management make it easy with reliable connectivity including Power-Over-Ethernet for convenience and control.

## Netgear help move information for the education sector.

# HARD-WEARING CASES FROM STM.

Devices to last and withstand the rigors of use and unexpected slips.

## Protecting your devices from the rigors of school life.

*"It's important to understand what students need in the classroom, and expose them to new technologies and new ways of thinking, so that they can go out in the working world and carry those ideas and learnings with them into the world"*

- Adina Jacobs Co-founder & Head of Product, STM

With over 20 years of feedback and confidence from teachers and education IT specialists means STM helps bring you the highest standards to protect laptops and tablets, better organize daily necessities, and ultimately save you money.

*"Partnering with STM was not only a sound financial decision for Tustin unified school district, but it was also aligned with the values we uphold for ourselves and our students. Partnership over product, every day, every time."*

- David Smith, CTO, Tustin (CA), Unified School District.

STM has a range of products made specifically for devices used in the classroom due to the importance of safeguarding digital devices from accidents which are prone to happen in a school environment. STM's solutions for schools include ensuring accessories have been drop tested and will withstand the rigours of the classroom, work, and everyday environment.

You need your devices to last and to withstand the rigors of use and the unexpected slips. STM's cases and bags are there when you need them.
