

SAMSUNG

Open up new ways of working with the

Samsung Galaxy Z Flip3

Meet the Samsung Galaxy Z Flip3. It's our innovative, compact, foldable phone, and the culmination of years of research, development and our passion for pushing the boundaries. Slim, stylish and built to last, it's sure to turn heads wherever you're working.

The modern workplace is wherever you want it to be—at home, in the office or getting things done on the move. But to remain productive, you need a phone that keeps you going. The Galaxy Z Flip3 is our powerful, compact, foldable phone for work.

Thanks to our partnerships with Google and Microsoft, you get a superior Android experience and a full suite of business tools and apps that are optimised to work with foldable phones. And with Samsung Knox defence-grade security, you can rest assured your data is fully protected.

The innovative foldable screen helps you increase your productivity by working on two apps at the same time. Plus, with superior battery power and hyperfast 5G connectivity, it keeps up with even the busiest working day.

SAMSUNG

Maximise your multitasking.

Get more done, all at once. The Multi Active Window feature on the Samsung Galaxy Z Flip3 helps you take multitasking to the next level. It lets you get to the apps you need quickly, so there's no endless scrolling.

And with two apps open at once, you can check emails while browsing the web, or add notes to a presentation while talking to your team on a video call.

Safe and secure.

Stay safe with a super secure work phone. Samsung Knox defence-grade security makes sure your Samsung Galaxy Z Flip3 and all your sensitive data remains completely protected.

Plus, with face recognition and the side fingerprint scanner, you can rest assured that only authorised users will be able to access your device.

Be informed without being interrupted.

Keep up to date without getting distracted. The Cover Display on the Samsung Galaxy Z Flip3 is ideal for when you want to keep on top of things but don't want to be interrupted.

So, you can have your phone on your desk, or at hand in meetings, to see the time or incoming messages at a glance. You can even answer calls without having to unfold your phone.

See and hear every detail.

Share work and communicate with colleagues without missing a thing. With its 6.7" Dynamic AMOLED display and a 120Hz Adaptive Refresh Rate, the Samsung Galaxy Z Flip3 lets you see your work in all its glory.

Plus, True Stereo Sound means you can watch presentations, tune into a podcast, or collaborate on video calls with crystal clear audio quality.
