

Building a Smarter future with Lenovo

Lenovo™

Lenovo are thinking smarter — about customers, communities, and the planet.

What are Lenovo doing?

By minimizing waste and using sustainable materials, Lenovo eliminated more than **3,100 tons of packaging** by weight since 2008.

Lenovo's newest emission reduction targets have been approved by the **Science Based Targets initiative (SBTi)**.

Lighter, bio-based packaging results in a **6.7% efficiency improvement** in transportation CO2 emissions.

Estimated annual savings: **5,956 tons of CO2**, equal to conserving **670,170 gallons of gasoline per year**.

Lenovo exceeded their first-generation target (2010-2020) of **reducing greenhouse gas emissions by 40%** one year ahead of schedule and achieved a **92% reduction**.

By 2025, Lenovo will have enabled the recycling and reuse of **800 million pounds** of end-of-life products since 2005.

Lenovo are an industry leader in using post-consumer recycled content (PCC) plastics.
