Key Benefit

- * Effortless Charging: Place your phone or AirPods on the center of the pad and PowerWave will do the rest. Anti-slip silicone rings on the top and bottom help keep your phone on the sweet spot, even when vibrating.
- * Smart Charging: PowerWave automatically switches between 5W, 7.5W, 10W, and 15W charging modes depending on your device's power needs—ensuring optimized wireless charging for a wider range of devices than ever before.
- * Universal Compatibility: PowerWave II Pad is compatible with virtually all Qi-enabled devices including iPhone 11, Samsung Galaxy S10, Sony Xperia XZ3, Pixel 4, and AirPods wireless charging cases.

Bullet Selling Point

- * Adaptive Charging For Any Device
- * Anti-Slip Rings
- * Through-Case Charging
- * Exclusive MultiProtect Safety System
