# Samsung Galaxy XCover6 Pro

## Designed for work, built to last

Introducing the stylish, durable Samsung Galaxy XCover6 Pro. Our toughest rugged phone yet, it's built to perform in harsh environments and keep up with the most demanding jobs.

With an attractive, premium design, the Galaxy XCover6 Pro is tough enough to handle a hard day's work—wherever you're working. Designed to meet extreme durability standards, it can take whatever you throw at it—from bumps and scrapes to dust and water. Intuitive and simple to use, it's packed with tools and apps to help you work wonders in the warehouse, office, shop floor or out on site.

Fast charging and a replaceable battery<sup>1</sup> help it power through even the toughest workday. It's our first rugged device to feature 5G connectivity. And with Wi-Fi 6E, staying in touch with your team is easy. Plus, of course, with Enterprise Edition, you get all the security, support and services you'd expect from a Samsung Rugged device.

## Get fast connections anywhere with 5G and Wi-Fi 6E

Stay connected wherever you are with the Galaxy XCover6 Pro. Tap into hyperfast connectivity with our first rugged device to feature 5G—making it easier to access the data or vital information you need to carry out tasks in the field. And wherever work takes you, you can easily keep in touch with colleagues back at the office, or in other locations. The Galaxy XCover6 Pro also has Wi-Fi 6E built in, helping you work, collaborate and share documents faster.

## Work smarter with a phone that can handle it all

Work anywhere with the phone that's ready for anything. The Galaxy XCover6 Pro is built to MIL-STD-810H<sup>2</sup> standards, meaning it can handle bumps, scrapes, dust and dirt—and even being dropped onto steel from as high as 1.5m. Gorilla Glass<sup>®</sup> Victus+<sup>®</sup> gives you scratch resistance and drop protection. And with IP68 water and dust resistance<sup>3</sup>, you don't need to worry about rain, dusty warehouses or dropping your phone in puddles. Plus, it copes with being sanitised regularly<sup>4</sup> to keep it free from germs. So, you can work anywhere, confident your device is up to the task.

### Manage, maintain and secure with Enterprise Edition

Make managing your fleet easier with Enterprise Edition on the Galaxy XCover6 Pro. It's a complete package of services and Knox Suite security<sup>5</sup>, designed to protect your mobile devices and make them easier to maintain. You get 3 years' enhanced support and up to 5 years of security and maintenance updates<sup>6</sup>—plus four Android generation updates. And with 2 years' extended product lifecycle, you can ensure consistency across your devices. So, wherever frontline employees are working, they can remain productive and secure, while your business maximises the value of its mobile investment.

### Increase your productivity, wherever work takes you

Get more done, wherever you are. The Galaxy XCover6 Pro's two programmable keys let you quickly access essential tools—like Microsoft Teams Push-To-Talk and Barcode Scanning<sup>7</sup>—to help speed up tasks. With Knox Capture<sup>8</sup> you can use the phone's camera as a scanner or RFID reader. Plus, for noisier environments, our loudest speaker yet gives you up to 70% increase in speaker volume compared with the last generation device<sup>9</sup>. 15W fast charging and the built-in POGO pins mean you can recharge rapidly using a POGO dock<sup>10</sup>. And with the replaceable battery<sup>1</sup>, you'll be confident you have enough power to last through the longest day in the most remote locations.
