

moto g³⁰

FASTER REFRESH. MULTITASKING MARVEL

The 90 Hz display refreshes faster than phones with standard displays giving you seamless scrolling and with a split screen feature - work on multiple sheets or docs simultaneously. Store more on your device with 128 GB of storage built-in¹. Faster charging with TurboPower™² and a two-day battery² keeps you going day after day. Boost your performance in everything you do with **moto g30** and its Qualcomm® Snapdragon™ processor. With regular security updates for 3 years**.

Refresh your perspective

With a 90 Hz refresh rate, there's less lag for a much smoother experience. Bring your conference calls, documents and movies to life on a stunning ultra-wide screen. The 6.5" Max Vision HD+ display gives you maximum viewing thanks to a 20:9 aspect ratio and My UX, a multitasking marvel, enables you to work on multiple sheets or docs simultaneously.

Over two days of battery life²

The 5000 mAh battery gives you over two days² of power on a single charge. Stream webinars, videos, music or browse websites for hours. All without having to plug in. TurboPower™ 20 gives you hours of power in just 15 minutes of charging².

Hold everything

Never give storage a second thought with 64 GB/128 GB built in¹, you have plenty of room for videos, documents, files, photos, and apps. Add up to 512 GB more using a microSD card⁴.

Water-repellent³ design

Never let spills or splashes get in your way. A water-repellent³ design keeps your phone protected inside and out.

Boost your performance

The Qualcomm® Snapdragon™ 662 octa-core 2.0 GHz processor boosts performance, so you can edit effortlessly and share quickly. With smooth, vivid graphics, plus, with 4 GB / 6 GB of RAM⁵, you can move back and forth between files and apps without lag.

64 MP quad camera system

Capture sharper, brighter high-res images, wide-angle photos, professional-looking portraits, and detailed close-up shots. It's the perfect camera for capturing labels, QR codes or yourself during a conference call.

1. Available user storage is less due to preloaded software, operating system and other functions, and is subject to change without notice due to software updates. 128GB available in LATAM, EU and APMEA except India. 2. Battery must be substantially depleted; charging rate slows as charging progresses. All battery life claims are approximate and based on the median user tested across a mixed use profile (which includes both usage and standby time) under optimal network conditions. Actual battery performance will vary and depends on many factors including signal strength, network and device settings, temperature, battery condition, and usage patterns. 3. Advanced water-repellent design creates a barrier to help protect against moderate exposure to water such as accidental spills, splashes or light rain. Not designed to be submerged in water, or exposed to pressurized water, or other liquids; may diminish over time. Not waterproof. 4. Supports up to 512GB microSD card, microSD cards sold separately. Content with DRM restrictions may not be able to be moved to the card. 5. 4GB of RAM available in LATAM, UK, Netherlands, Sweden, Germany, Poland, France, Spain, Romania, Serbia, India, Japan, Australia, Lenovo PRC. 6GB of RAM available in Germany, Poland, Italy, Romania, Serbia, Ukraine, KSA, UAE, Taiwan, Thailand, Malaysia, HK, Philippines. 6. Auto smile capture can recognize up to 5 faces/people in the same frame. 7. Automatically triggered when using digital zooming (higher than 2x), effect is not shown real time in viewfinder. 8. Google Lens not all languages supported. A list of current languages supported by Google Lens can be found here: lens.google.com. ** bi-monthly security patches will be delivered in the first 2 years and quarterly security patches in the 3rd year.
