DELIVER CYBER ESSENTIALS CERTIFICATION TO YOUR CUSTOMERS IN 24 HOURS

If your customers are going for tender, they may be asked to get Cyber Essentials certification.

But what is Cyber Essentials certification? And why are Dromaeus and CyberSmart the right partners to help them get there?

WHAT IS CYBER ESSENTIALS?

Cyber Essentials is a government-backed certification that ensures companies are practicing good cyber hygiene. It's required for government tenders and is an indicator of a commitment to security and data protection.

Getting Cyber Essentials certified protects your customers against 99% of threats and demonstrates their security credentials to regulators and prospects.

5 CYBER ESSENTIALS FUNDAMENTALS

- Firewalls
- Patch management
- Malware protection
- Access control
- Secure configuration

KEY FEATURES

- Cyber security certification within 24 hours
- 100% guaranteed pass rate
- Smart platform checks to ensure a pass before submission
- Live support, guiding users through the questionnaire step-by-step

WHY CYBERSMART?

We know cybersecurity and government guidance better than most. After all, we were born from a GCHQ accelerator.

Our expertise helps make the often complex and expensive process of Cyber Essentials certification quick, simple and painless. Unlike other providers, we don't require the extra hassle of vulnerability and penetration testing or cybersecurity training.
