CYBER ESSENTIAL PLUS: THE TIME TO GO REMOTE IS NOW

Achieving Cyber Essentials Plus, an official certification standard, requires an audit by a certified assessor. CyberSmart is the market leader in delivering remote auditing services meaning businesses can maintain continuity- whether or not they're based in one office.

CyberSmart have been remote auditing using their proprietary software for over two years and stand ready to support those businesses who need to maintain their current certification or to gain a new certificate to carry on with their business or enter new procurement opportunities.

> " MAKES COMPLIANCE A PLEASURE! WE'VE BEEN HELPING CUSTOMERS ACHIEVE CYBER ESSENTIALS AND HAVE RECENTLY ENJOYED DOING THIS USING CYBERSMART'S PRODUCTS AND SERVICES. IT MAKES IT SO CLEAR AND STRAIGHT FORWARD COMPARED TO OTHER WAYS OF IMPLEMENTING THIS. WE HAVE SOME VERY HAPPY CUSTOMERS

A REMOTE AUDIT WITH CYBERSMART

Quote	Preparation	Audit	Certify
Our team will put together a quote based based on the complexity of a customer's IT and business solutions.	CyberSmart provide you with a step-by-step checklist prior to the audit to ensure that your customer meets the requirements for certification.	A remote audit is carried out by one of our assessors, who will help you achieve the standard required for certification.	Once the questionnaire is completed and Cybersmart completes the technical audit, we submit the application and issue your certification.
