ASSEMBLY

1. Choose castors or static feet (7) and plug into receptacles in bottom of base (9) .

2. Fix mast (1) to base (9) with (8) provided.

3. Remove rear door and panel (10) by unscrewing the 4 x M6 x 16 button head screws (11) This gives access to fit the multi screen mount (2).

4. Fit multi screen mount (2) to mast (1) using the central 150 centre holes using (6) - 2 heights are available

5. If required - Fit vcm (C) between multiple screen support (2) and mast (1) so vcm (C) slots engage with top screws.

6. After fitting chosen screen to screen mount arms, fit screen mount base plate to multi screen mount (2). Adjust mount separation on slots provided for size of screen. Once desired positions have been found, tighten all appropriate bolts to secure the screens in position 7. If required - fix glass into metal shelf support with nut and bolt provided. Fit glass shelf onto key-hole slots in mast - 2 heights available

7. Blade unit - camera mount (D) to be mounted to mast (1) before multi screen mount (2). Fix from rear using (4). If there is a gap between screens the infill panel can be requested. This slots over blade to cover unsightly cables. Do this before mounting screens. NB - infill panel is a dual screen option only.
