Why choose an EcoTank printer?

Take the hassle out of printing with up to 14,000 pages worth of ink included in the box[3].

up to

3 years

of ink included[1]

Ultra-low-cost printing

EcoTank printers deliver an unbeatable 90% lower cost-per-page than competitive printers[2].

Save up to

90%

on the cost of ink[2]

Easy to use

The new ink filling system minimises spills with enhanced bottles that feature a key-lock design to ensure each tank is filled with the right colour.

Peace of mind

EcoTank printers provide Epson quality, speed and reliability, giving you true peace of mind backed up by a 1 year standard warranty, plus a 3 year promotional warranty with sign up. Terms and conditions apply[8].

Epson's EcoTank series

Choose your ideal model to suit your needs and enjoy thousands of low-cost, hassle-free prints.

Home printers

Includes ink to print up to **14,000** pages[3]

Office and business printers

Includes ink to print up to **14,000** pages[3]

Photo printers

Includes ink to print up to **1,500** 10x15cm photos[3]

50 million EcoTank printers sold worldwide[4]

We've changed printing forever

Epson's EcoTank printers provide an ultra-low-cost printing solution plus they're reliable and easy to use too.

Ultra-low-cost printing

Thanks to the integrated high-capacity ink tanks, ink is supplied continuously to the printer, you simply top up the tanks with Epson ink bottles and keep on printing. Not only is it more convenient, they come with up to three years' worth of ink included in the box, so it's much better value too.

Lock and fill system

The new ink filling system minimises spills with enhanced bottles that are easier to open and have an airflow system so squeezing is not necessary during the filling process. The new bottles also feature a key-lock design that ensures each tank is filled with the right colour.

Double-sided printing

Save money and paper by printing automatically on both sides of the page. It's more eco-friendly too.

Integrated printhead

EcoTank printers feature a built-in permanent printhead for hassle-free, reliable printing.

Welcome to
Heat-Free Technology

Epson's unique Heat-Free Technology offers numerous benefits over laser and thermal inkjet models. To start off, this technology doesn't need to warm up when switched on.

A first page can be printed fast, using less power. Running costs are reduced further due to fewer replacement parts being needed (with no heat damage, the printheads last the lifetime of the printer). Epson Heat-Free Technology offers improved reliability, reduced downtime and less environmental impact.

Epson Connect

Print and scan from anywhere

Epson iPrint[6]

Print or scan your photos and documents from your smartphone or tablet. Download and install the free app, and you're ready to print over Wi-Fi. Available for iOS and Android.

Epson Email Print[6]

Print your photos and documents from anywhere in the world. Simply email your files to your printer's unique email address for automatic printing.

Other Mobile Solutions

Wi-Fi Direct

No wires, no router, no fuss. With Wi-Fi Direct there's no need for a permanent internet connection or Wi-Fi network.
Simply connect your smartphone, tablet or laptop to your printer's Wi-Fi signal, and select your photo or document to print wirelessly.

Apple AirPrint[7]

Print wirelessly from your iOS device to a nearby AirPrint-ready Epson printer.

EPSON®

[1]Savings achieved in 3 years by printing 406 pages per month. Cost comparison incorporates pricing of hardware, included and replacement ink bottles/toner cartridges. Hardware pricing comparison is made based on the introductory prices of the Epson M1100 and the average price of the top selling 77% of A4 single function monochrome laser printers (print speed below 20ppm) across Greece, Czech Republic, Hungary, Poland, Rest of SEE, Romania, Slovakia, Slovenia and Turkey for the period January - December 2018. Printing costs comparison is made based on the introductory prices of Epson black ink bottles (110 series) and the average prices of genuine OEM black toner cartridges of the largest available yield for the top selling 77% of A4 single function monochrome laser printers (print speed below 20ppm) across Czech Republic, Hungary, Poland and Turkey for the period January - December 2018. Competitor laser toner cartridges yields as communicated by the manufacturers websites. [2]Average number of toner cartridges for printing the number of pages using the included ink bottles with the EcoTank Mono range. Comparison made on the average included ink bottle yield of the 2019 EcoTank Mono range versus the average included and replacement genuine toner yields of the top 10 best-selling Mono Laser models (up to 20ppm category) in Central & Eastern Europe, Middle East, Africa, in the period January – December 2018. Toner yields as communicated by manufacturer's websites. [3]Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 24712. Quoted yields are NOT based on ISO/IEC 24711. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial included set can be lower. [4]Determined in accordance with ISO/IEC 24734 showing the average of ESA T from the Office Category Test for default simplex. For more information visit www.epson.eu/testing [5]Comparison of the power consumption while printing of the Epson M1120, M2170 and M3170 models against the average top selling 75% of A4 monochrome laser printers (print speed below 20ppm) across Greece, Czech Republic, Hungary, Poland, Rest of SEE, Romania, Slovakia, Slovenia and Turkey for the period January - December 2018. Power consumption values as communicated by the manufacturers websites. [6]Epson iPrint requires a wireless connection and the Epson printing app. Epson Email Print, Epson Remote Print Driver and Epson Scan-to-Cloud require an Internet connection. For more information, supported languages and devices, please visit www.epson.eu/connect [7]AirPrint-enabled printers work with iPhone 4s and later, iPad2 and later, all models of iPad Air and iPad mini, and iPod touch 5th generation with the latest version of iOS, and Mac with the latest version of OSX. [8]Terms and conditions apply. For details, please visit www.epson.eu/printwarranty.

EcoTank M2120
Our most affordable A4 mono 3-in-1 printer with Wi-Fi Direct and LCD screen.

Wi-Fi and Wi-Fi Direct are registered trademarks of Wi-Fi Alliance®.

$$1 \text{ ink bottle} = 5 \text{ laser toners}^2$$

Easy to use

EcoTank has a large refillable ink tank that is filled with the included ink bottles. This ink filling system minimises spills with bottles that feature a key-lock design to ensure the tank is filled with the correct ink.

Peace of mind

EcoTank printers provide Epson quality, speed and reliability, giving you true peace of mind backed up by a 1-year/100,000-page warranty, plus a 3 year promotional warranty with sign up. Terms and conditions apply[8].

Why choose an EcoTank mono printer?

Save up to 50% on printing in 3 years compared mono laser printers[1]

From the start you have enough ink to print up to 11,000 pages[3], cutting costs and saving time as you're not frequently changing toner.

Save up to

95%

in power consumption[5]

Save time and energy

Printing is fast with no warm-up time and print speeds of up to 20ppm[4]. EcoTank mono printers can also save you up to 95% in power consumption compared to mono laser printers[5], meaning you can cut energy usage and reduce overheads.
